Subject: Glyphosate- information requests

Dear Vol 112 Working Group members,

It has been brought to our attention that two state universities in the US have received information requests, issued under US state open records laws, concerning the IARC evaluation of glyphosate. IARC is not in a position to offer legal advice to you or your institution concerning these requests. However, it is the position of IARC that all draft documents and materials prepared by the Working Group in advance of or during the in-person Monograph meeting are to be considered draft and deliberative. Working Group members prepare these materials on behalf of IARC, and not as part of their official employment duties for a state or federal institution, and IARC is the sole owner of all such materials. IARC does not encourage participants to retain working drafts of documents after the related Monograph has been published.

We hope this information is helpful to you.

With kind regards,
Kate
